THE TIDAL WAVE IN JAPAN. (From Our Own Correspondent). Kobe, 10th July, 1896.

The telegraph has already made known that Japan has just been visited by the greatest calamity on record in a history which is only too full of the destructiveness of Nature. Is a land where earthquake shocks are of daily occurrence, unfrequented paths over the hills. where every few years a province is blasted by a volcanic eruption or half the empire racked by a gigantic upheaval, even here there is no parallel for the present disaster, which ranks with the Liebon carthquake of 95 a century ago and the Peruvian earthquake not a trace of it remained ! The soldier's of a decade ago. The death of thirty thousand, the mutilation of as many and the utter destitution of twice that number, would be proclaimed all over the earth a few days after the accurrence : but figures alone convey but faint impressions, and it toys and prattling to herself, as if nothing is impossible to rollise the horrors of the

THE COMING ECLIPSE OF THE SUN. The Rev. Pere L. Froc. s.J., of the Sloawei Observatory, has kindly furnished us with the following interesting particulars of the coming eclipse of the sun :---

The coming collpse of the sun of the 9th f August will be total over the N. of Yezo Island; the total shadow will pass over the district of Kushiro, a little to the S. of the city of Nemuro, and also in the La Percuse Strait, which separates Yezo from Soghalion Island. There will likewise be total obscuration over the Bussian coast to the N. of Vladivostock and along a line passing through Siberia from N.W. to S.E. (approeimately from a point having for co-ordinates 72 Lat. N. and 67 Goog. E. of Greenwich down to a point in AS Lat. N. and 189 Long. E.). The colless will out through Nova Zembla and the N. of Lapland. will be invisible in England, France, and in any other place in Europe outside of Lapland. At Shanghai and in the whole of Chins it will be visible under the shape of a partial eclipse; the obscuration will be greater the more one goes north; for instance at Peking the moon will encroach on the greater part of the aun, whilst at Hong. kong, but a small part will be obscured As for the time, the more one is stationed in the W. the sooner the colinse will be seen on a same latitude, or, to speak more somrateed, vanished in the flood, for nobody has ly, on a line N.W. THE SAD AFFAIR AT MACAO.

Concerning the much regretted death of the Dean of the See of Macao, as reported in the Hougkong papers, and quoted in this journal, there seems to be no question at all that the mind of the unfortunate clergyman was quite unbinged, when he hanged himself. That is fully confirmed by a communication received by us from the Revd Father Jose Joaquim Baptista, the respected head of the Portuguese Mission in Singapore. Father Baptista writes as follows :---· I have read the geersgraph published i yesterday's Free Press about that "Sac

Affair in Macao," and I shall consider it as a special favour to me, and to the memory of the poor Dean of the See of Macso, who was one of my best friends, if you will permit me to say a few words on this subject, 'My village is only a mile and a half distent from the native place of the deceased Dean. He left Lisbon for the Far East it December, 1895, and passed through Singapore on the 7th January, 1896. Before he eft Liebon he was obliged to go to the Marian Hospital, because there was some suspicion on the part of the officials that the poor man was not saue in his mind. However, he was eventually allowed to come out to Masono. On the 7th January, 1896, he called here at the Parochial House, when to my great disappointment, I saw that my friend was not right in his mind. I had great difficulty in convincing him of some OPIUM-New Patns, cash,... 6974 very trivial matters which he set himself to which they can certify,-that the poor Dean of Macao was to some extent insure.

. Only three days before the sad event occurred his colleague and host, the Rev. Sir. is that the Dean of the See of Macao was mad, and the act which deprived him of life, and the Church of a valued servant was one for which he was not mentally

The late Dean was a most intimate friend of D. Medeiros, Bishop of Macao. They were school-mates, from the same village, and had been all their lives in the most cordial and intimate relations. THE CHINA REVIEW. PUBLISHED BI-MONTHLY.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of 'Notes and Queries on China and Japan,' has reached its Twenty-second Volume. It in-cludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolis, Tibet, and the Far East generally. It was thought that by extending the scope of the Review in this direction the scope of the Review in this direction. the Magazine would be made more generally

The Review department receives special attention, and endeavours are made to present a careful and concise record of Liberature on China etc., and to give critiques embodying skatches of the Most recent works on such topics. Authors and Publishers are requested to forward works to Editor. China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points. The Correspondents' column also affords forther and greater facilities for the inter-

ceived. The papers are contributed by the and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the Legge, and Messra Balfour, Watters, Stent. Piton, and Taylor, -all well-known names, indicative of sound scholarship and thorough mastery of their subject.

THE PRESENTATION TO DR MARQUES.

Yesterday, we printed the address that had been presented to Dr L. P. Marques by the Chinese residents. The following report of the proceedings reached us too late for publication in last night's issue :-

The presentation was made in a neat speech by Mr Ng Fuk Shan, who regretted that the task should have fallen to him instead of the Hon. Ho Kai, whose absence was due to unforeseen circumstances.

After thanking Mr Ng Fak Shang for the eloquent and flattering speech he made in presenting the address, Dr Marques sold-I cannot find adequate expressions to thank you for the great honour you have done me in coming to this house to present me with an address and this beautiful souvenir. It has been asserted that generally it is the unexpected that happens. This imposing manifestation seems to prove the truth of it. It is, indeed, a great surprise to me to receive this mark of esteem from the representatives of the important Chinese community of this colony, gentlemen who are distinguished by their intellectual achievements, by their commercial as well as their social standing, and by many other eminent qualities. Although I have attended very few of you professionally, I have, whenever an apportunity offered itself, treated the poor Chinese without expocting any reward. It is very kind of you to show in such a brilliant manner your recognition of the little I have done for my gennine admiration for the ancient Chinese civilization. I believe nobody can read the Chinese philosophers without marvellingat their sound and plain doctrines. In my opinion, they are superior to the Greek change of views and discussion of various philosophers that we admired at college. the French press. But we now come to the second aspect of the question which is the chief cause of anxiety. We refer to the political relations between France and Siam. and to the grievances of the French Government against the rulers of this country. Our Hongkong contemporary says that if the Courrier d'Haiphong could make good the whole of its assertious, viz., the perseoution of French proteges, the illegalities of the Stamese Government, and the alleged insolence of the administration towards French representatives, there might be some valid reason for invading and 'assuming the control of the affairs of that miserably governed country.' This is certainly an important admission, and one which does oredit to the writer who evidently would not deny to neighbours the right of proteoting their interests in the manner resorted to by Great Britain under similar circumstances. Our contemporary, however, takes for grant ed and assumes on such frail grounds unworthy of any serious attention, that these grievances do not exist in Siam. Our contemporary admits that acts of brutality and murder bring their own retribution. Let us leave it at that unsatiefactory stage for the present cioce the facts are undepiable.
